

PTFE grey

DATASHEET

Type EJ1400	
base material	glass fabric
weight	476 gram/m ²
thickness	0.33 mm
width	1500 mm
tensile strength	warp 581 N/cm weft 491 N/cm
tear resistance	91 N (45°)
coating	PTFE
color	grey (other colors available on request)
fire behavior	incombustible according to UL94 V-0 rating vertical fire-test
temperature	288°C continous
important qualities	oil resistant chemical resistant water resistant
applications	insulation covers compensators security clothing

Instalation

The instalacion of the PBS shield, wathever tissue is used is very easy. Put the PBS shield around the flange and close with the velcro. Than pull the strings and thithten strongly, close the stings with a knot. In this way the PBS shield is placed around the flange in a obtimal way.
